What is G5 Estimates & Projections?

Generation5's Estimates and Projections is a database of current-year estimates and three, five and ten year projections for demographic and consumer expenditure variables.

Applications

Using predicted values to anticipate shifts in demographics over time gives organizations a competitive advantage, enabling them to launch proactive, strategic initiatives to increase or maintain market share, fine-tune product and service offerings, and make better decisions regarding expansion of store locations.

Data Sources

- Statistics Canada*, 2006 Census Profile Subscription
- Statistics Canada*, 2006 DAs Boundary File
- Statistics Canada*, 2006 Census GeoSuite
- Teleatlas, 2008 DA boundary file
- Generation5, 2008 SuperCensus
- Generation5, 2008 Family Expenditures

**No confidential information about an individual, family, household, organization or business has been obtained from Statistics Canada.*

Note: Generation 5's Estimates and Projections is derived from a subset of variables from Generation5's Super Census and Family Expenditures databases.

Data Organization

Generation5's G5 Estimates & Projections variables are organized into the following main categories (for a complete list refer to Appendix A):

Population	Age	Households
Home Language	Employment	Income
Dwellings	Education	Family Expenditures

Details

Vintage:	2007
Update Frequency:	Annual
Formats:	DBF, CSV, MDB, G5 Portfolio ¹ , SAS, .shp, .tab
Size (un-compressed):	100 MB
Number of variables:	436
Number of records:	807,786

Methodology

Generation5 performs a set of complex calculations based on several data inputs and on derived geographic linkages. Advanced mathematical technology is applied involving proprietary data mining techniques employing the theory of supervised machine learning. In particular, a scenario based, non-parametric, non-linear approach is adopted.

Availability

Generation5's Estimates and Projections is updated annually and is available as a standalone file or as part of the G5 Portfolio micro marketing system. It can be provided at the following levels of geography - nationally, by region or by province:

- Forward Sortation Area
- Dissemination Area, Census Tract, Census Subdivision, Census Division, Census Metropolitan Area, Federal Electoral District or Province

Compatibility

Generation5's Estimates and Projections is a flat file, compatible with any commercially available data management or spreadsheet application.

About Generation 5

Generation5 builds effective consumer marketing solutions for some of North America's largest organizations and most recognized brands. Generation5's suite of products and services include enterprise-wide analytical projects for F500 customers, data mining software development, data production and Automated

¹ G5 Portfolio is a market analysis and segmentation tool that provides the ability to manage and utilize customer data, analyze markets and create demographic reports.

Analytical Outsource Services for organizations seeking fast solutions to recurring challenges.

Generation5 solutions are ideal for companies seeking an effective, measurable competitive advantage in consumer marketing. Generation5 software, analytics and databases are developed in its Research and Development Laboratory by a team of scientists, Ph.D-level experts in artificial intelligence, mathematics, operational research, software engineering and statistics. The recently launched Generation5 consulting practice helps customers plan, deploy and measure initiatives, ensuring maximum return from their investment in marketing analytics.
